Portfolio Update and Commentary

- AIT's NTA return was 0.29% for June 2019.
- During the month, AIT announced its intention to launch an underwritten non-renounceable right offer ("Rights Offer"), where Eligible Unitholders are entitled to subscribe for 1 new unit for each unit held as at 26 July 2019 (being the Record Date of the Rights Offer). The Trust also announced that it intends to recommence paying distributions to Unitholders, targeting distributions equivalent to 5% per annum of AIT's net asset value to be paid in semi-annual instalments following the publication of the half and full year accounts, respectively. Documents explaining the Rights Offer and Distribution Reinvestment Plan were despatched to all unitholders on 30 July 2019 with further details and relevant application forms. Additional information is available on the ASX website or at www.thealternativeinvestmenttrust.com.
- Warana 2018 Fund has announced that it intends to call the balance of the Trust's capital commitment (US\$650k) in the coming weeks.

About the Responsible Entity of AIT

Columbus is a member of One Investment Group ("OIG") which is an independent funds management business specialising in providing Responsible Entity, Trustee, Custody and Administration services. One Investment Group is responsible for in excess of 250 funds and \$17bn in a wide range of underlying asset classes including infrastructure, real estate, equities, fixed income, private equity and fund of funds. OIG is not a fund manager and its clients include global and Australian listed companies, sovereign wealth funds, banks, insurance companies, pension funds, private equity firms and boutique managers.

About the Investment Manager of AIT

Warana Capital Pty Limited ("Warana") focuses on managing portfolios invested in third party funds and has core expertise in acquiring and managing funds acquired in the secondary market. The underlying funds and assets acquired are generally illiquid with uncertain holding periods to ultimate recovery. Warana has significant experience acquiring these funds at sufficient discounts to deliver absolute and annualised returns notwithstanding the time period and recovery uncertainty.

Distribution Policy

Subject to sufficient cash reserves, AIT intends to distribute 5% per annum of the Trust's net asset value, paid in semi-annual instalments following the publication of the half and full year accounts, respectively. As at the end of the 2018 tax year, the Trust has in excess of A\$400m in accumulated tax losses and in excess of A\$20m in accumulated capital losses. Under certain circumstances and provided relevant legislative conditions are satisfied, these losses may be able to be applied against future taxable income to reduce the amount of taxable income and therefore the amount of any income distribution. Unitholders may reinvest distributions by purchasing additional units through the Trust's Distribution Reinvestment Plan. Participation in the Plan is optional and is open to all unitholders residing in Australia and those who are residents outside of Australia and who have produced to AIQ such evidence as AIQ may require to satisfy it that any necessary governmental approvals required by unitholders to participate in the Plan have been obtained and that their participation is not contrary to any applicable laws.

Other Information

The monthly NTA is released to the ASX and www.thealternativeinvestmenttrust.com by the 14th of each month and AIT factsheets are available from AIT's website and the ASX. Figures in the factsheet are based on the interim monthly data available at the time that the corresponding monthly NTA is released.

The net asset value of AIT is calculated by aggregating the valuations provided to AIT by the underlying fund managers and their administrators. Unaudited valuations are generally provided to AIT monthly and the funds are audited annually. Notwithstanding this process and based on its knowledge of the AIT funds and its experience on the secondary market, Warana believes that:

- it will likely take several years to fully receive liquidation proceeds and in that period AIT will be subject to either positive or negative performance; and
- if sold today, holdings would be liquidated at discounts to their prevailing net asset values.

When Warana 2018 Fund acquires positions in the secondary market it will generally acquire funds at discounts to the funds' reported (and audited, if available) valuations. The Warana 2018 Fund then itself reports a net asset value quarterly which aggregates:

- the most recent available net asset values provided by the underlying funds (with no discount reflecting the actual cost);
- for fund positions that have fully transferred in at the quarter end (fund purchases generally take several months to complete).

It generally takes 6-8 weeks post quarter end for Warana 2018 Fund to receive the net asset values and position reports from the underlying funds, which causes a similar delay in Warana 2018 Fund releasing its own aggregated net asset value. AIT reflects the updated Warana 2018 Fund valuation in the calculation of its net asset value as soon as it is published by Warana 2018 Fund - being generally the second month after quarter end. For the period up to 30 June 2019 covered by this fact sheet there were no material changes to any of the following: the Trust's risk profile; the Trust's strategy; and key investment personnel related to the Alternative Investment Trust. For information since that date, please refer to either of the following websites www.thealternativeinvestmenttrust.com or www.oneinvestment.com.au/alternative-investment-trust.
