

## Periodic Statement 31 December 2019

Columbus Investment Services Limited (ACN 095 162 931) (**Responsible Entity**) in its capacity as the responsible entity of the Alternative Investment Trust (ARSN 112 129 218) (**AIQ**) present the Periodic Statement for AIQ as at 31 December 2019.

This statement contains information required by section 1017D of the *Corporations Act 2001 (Cth)*. Unitholders should not rely on this information for the purpose of preparing their income tax returns. Each unitholder receives a tax statement in August which contains information required to complete an Australian income tax return.

Information in relation to the number of AIQ units you held during the period is available at [www.linkmarketservices.com.au](http://www.linkmarketservices.com.au) or by contacting Link Market Services on +61 1800 025 095. Information in relation to the prices at which you may have traded in AIQ securities can be obtained through your broker or financial adviser.

### **Total Fees and Indirect Costs**

The approximate amounts below have been deducted from your investment and include amounts that have reduced the return on your investment but not charged directly to you as a fee.

	For the 12 Months ended 31 December 2019	For the 12 Months ended 31 December 2018
Direct Costs <sup>1</sup>	\$575,000.00	\$598,000.00
Indirect Costs	\$181,500.00	\$87,500.00
Total Costs	\$756,500.00	\$640,500.00
Number of Units on issue	248,409,958	124,204,979
Total Costs per Unit	\$0.003	\$0.005
Total Costs per 50,000 Units	\$152.27	\$257.84

<sup>1</sup>Including \$80,000 of costs associated with non-renounceable right issue in 2019

### **Your acquisition price**

AIQ may be required to periodically advise you of the price at which you have acquired AIQ securities or why AIQ cannot. If you have purchased AIQ securities on-market AIQ will not know this information and cannot provide it to you. Please contact your broker if you wish to know the price at which you have acquired AIQ securities.

### **Calculating your return on investment**

It is not possible for AIQ to accurately calculate your return on investment. Typically an investor calculates a return on investment as the percentage of a distribution per unit received in a financial year divided by the cost of the security. If acquisitions of securities are made at several times during a financial year an investor should give consideration to weighting each security's return of investment in the context of the investor's total investment in securities (as opposed to simply calculating an average return on investment).
